Contents of Volume 186, No. 1

Biosynthesis and Degradation

Microbial metabolism of amino alcohols. Biosynthetic utilization of ethanolamine for lipid synthesis by bacteria	S. D. SHUKLA & J. M. TURNER	13–19
Protein degradation in hepatocyte monolayers. Effects of glucagon, adenosine 3′:5′-cyclic monophosphate and insulin	M. F. HOPGOOD, M. G. CLARK & F. J. BALLARD	71–79
The catabolism of prostaglandins by rat skin	R. CAMP & M. W. GREAVES	153–160
Surface-labelling studies on skeletal-muscle cells *in vitro*. Heterogeneity of iodinated cell-surface proteins	G. A. CATES & P. C. HOLLAND	211–216
The identification of the folate conjugates found in rat liver 48h after the administration of radioactively labelled folate tracers	M. J. CONNOR & J. A. BLAIR	235–242
Substrate-specificity studies on protochlorophyllide reductase in barley (*Hordeum vulgare*) etioplast membranes	W. T. GRIFFITHS	267–278
Degradation of [^{3}H]chondroitin 4-sulphate and re-utilization of the [^{3}H]hexosamine component by the isolated perfused rat liver	A. D. MACNICHOLL, F. S. WUSTEMAN, P. J. WINTERBURN, G. M. POWELL & C. G. CURTIS	279–286
Transacylation as a chain-termination mechanism in fatty acid synthesis by mammalian fatty acid synthetase. Synthesis of butyrate and hexanoate by lactating cow mammary gland fatty acid synthetase	J. K. HANSEN & J. KNUDSEN	287–294
Insulin degradation by adipose tissue. Studies at several levels of cellular organization	B. J. GOLDSTEIN & J. N. LIVINGSTON	351–360
Contribution of rat liver and gastrointestinal tract to whole-body protein synthesis in the rat	M. A. MCNURLAN & P. J. GARLICK	381–383

Bioenergetics

Energy transduction in intact synaptosomes. Influence of plasma-membrane depolarization on the respiration and membrane potential of internal mitochondria determined *in situ*	I. D. SCOTT & D. G. NICHOLLS	21–33
An analysis of some thermodynamic properties of iron–sulphur centres in site I of mitochondria	W. J. INGLEDEW & T. OHNISHI	111–117
Respiration-dependent calcium ion uptake by two preparations of cardiac mitochondria. Effects of palmitoyl-coenzyme A and palmitoylcarnitine on calcium ion cycling and nicotinamide nucleotide reduction state	P. E. WOLKOWICZ & J. MCMILLIN-WOOD	257–266
Nature of the effect of adenosine 5′-monophosphate on the cyanide-insensitive respiration in mitochondria of *Moniliella tomentosa*	J. VANDERLEYDEN, E. VAN DEN EYNDE & H. VERACHTERT	309–316
Metabolism of hydrogen peroxide in *Euglena gracilis* z by L-ascorbic acid peroxidase	S. SHIGEOKA, Y. NAKANO & S. KITAOKA	377–380

Subcellular Structures

Polyribosomes in isolated liver cells. Preparative procedures, effects of incubation and correlation with protein synthesis	A. J. DICKSON & C. I. POGSON	35–45

Subcellular distribution and movement of 5′-nucleotidase in rat cells	K. K. STANLEY, M. R. EDWARDS & J. P. LUZIO	59–69
Sodium ion/L-lactate co-transport in rabbit small-intestinal brush-border-membrane vesicles	B. HILDMANN, C. STORELLI, W. HAASE, M. BARAC-NIETO & H. MURER	169–176
A simple and fast method for the isolation of basolateral plasma membranes from rat small-intestinal epithelial cells	V. SCALERA, C. STORELLI, C. STORELLI-JOSS, W. HAASE & H. MURER	177–181
The mother-cell-membrane adenosine triphosphatase of sporulating *Clostridium pasteurianum*	D. J. CLARKE & J. G. MORRIS	191–199
Mechanisms of loss of latency of lysosomal enzymes. Effects of incubation on the properties of lysosomal membranes	R. C. RUTH & W. B. WEGLICKI	243–256
Induction of peroxisomal β-oxidation in rat liver by high-fat diets	C. E. NEAT, M. S. THOMASSEN & H. OSMUNDSEN	369–371

Cellular Interactions and Control Processes

Inhibition of urea-cycle activity by high concentrations of alanine	H. E. S. J. HENSGENS & A. J. MEIJER	1–4
The size of collagen fibrils that stimulate platelet aggregation in human plasma	P. KRONICK & S. A. JIMENEZ	5–12
A comparative study of the early effects of phenobarbital and 3-methylcholanthrene on the synthesis and transport of ribonucleic acid in rat liver	A. KUMAR, M. R. SATYANARAYANA RAO & G. PADMANABAN	81–87
Binding of aldolase to actin-containing filaments. Evidence of interaction with the regulatory proteins of skeletal muscle	T. P. WALSH, D. J. WINZOR, F. M. CLARKE, C. J. MASTERS & D. J. MORTON	89–98
Interaction of aldolase with actin-containing filaments. Structural studies	M. STEWART, D. J. MORTON & F. M. CLARKE	99–104
Effect of electrical stimulation *post mortem* of bovine muscle on the binding of glycolytic enzymes. Functional and structural implications	F. M. CLARKE, F. D. SHAW & D. J. MORTON	105–109
The Swift increase in alcohol metabolism. Time course for the increase in hepatic oxygen uptake and the involvement of glycolysis	T. YUKI & R. G. THURMAN	119–126
Differential effect of L-thyroxine on phospholipid biosynthesis in mitochondria and microsomal fraction	J. M. PASQUINI, I. FARYNA DE RAVEGLIA, N. CAPITMAN & E. F. SOTO	127–133
2-Oxocarboxylic acids and function of pancreatic islets in obese–hyperglycaemic mice. Insulin secretion in relation to ^{45}Ca uptake and metabolism	S. LENZEN & U. PANTEN	135–144
Non-esterified cholesterol-rich adrenal lipid fractions. Preparation, properties and preferential utilization for cholesterol side-chain cleavage by corticotropin-stimulated adrenal mitochondria	R. V. FARESE, W. J. PRUDENTE & L. T. CHUANG	145–153
The stimulus–secretion coupling of glucose-induced insulin release. Metabolism of glucose in K^+-deprived islets	A. SENER, S. KAWAZU & W. J. MALAISSE	183–19
Oestrogen-induced synthesis of thiamin-binding protein in immature chicks. Kinetics of induction, hormonal specificity and modulation	K. MUNIYAPPA & P. R. ADIGA	201–21
The effect of ascorbic acid on the nature and production of collagen and elastin by rat smooth-muscle cells	Y. A. DE CLERCK & P. A. JONES	217–22
Hydrophobic interaction between the monomer of mitochondrial malate dehydrogenase and phospholipid membranes	K. A. WEBSTER, K. B. FREEMAN & S. OHKI	227–23

Characterization of rat hypothalamic progestin binding by spheroidal hydroxylapatite chromatography	S. THROWER & L. LIM	295–300
Triacylglycerol metabolism in isolated rat kidney cortex tubules	G. WIRTHENSOHN & W. G. GUDER	317–324
The effect of nitrofurantoin on deoxyribonucleic acid synthesis in plant mitochondria	S. PALIT, B. B. GOSWAMI & D. K. DUBE	325–329
Metabolic adaptation in phosphorylase kinase deficiency. Changes in metabolite concentrations during tetanic stimulation of mouse leg muscles	Z. H. A. RAHIM, D. PERRETT, G. LUTAYA & J. R. GRIFFITHS	331–341
Effect of tunicamycin on the metabolism of low-density lipoproteins by control and low-density-lipoprotein-receptor-deficient human skin fibroblasts	I. FILIPOVIC & K. VON FIGURA	373–375
Development		
Hormone-initiated maturation of rat liver mitochondria after birth	R. SUTTON & J. K. POLLAK	361–367
Metabolism in Whole Organisms		
Net hepatic and splanchnic metabolism of lactate, pyruvate and propionate in dairy cows *in vivo* in relation to lactation and nutrient supply	G. D. BAIRD, M. A. LOMAX, H. W. SYMONDS & S. R. SHAW	47–57
Glucose metabolism and recycling of radioactively labelled glucose in the Zucker genetically obese rat (*fa/fa*)	A. J. WADE	161–168
The utilization of glucose for the synthesis of milk components in the fed and starved lactating goat *in vivo*	N. CHAIYABUTR, A. FAULKNER & M. PEAKER	301–308
Purine metabolism in mesophyll protoplasts of tobacco (*Nicotiana tabacum*) leaves	J. BARANKIEWICZ & J. PASZKOWSKI	343–350

Contents of Volume 186, No. 2

Bioenergetics		
Detection of cytochrome b_{+50} in membranes of *Rhodospirillum rubrum* isolated from aerobically and phototrophically grown cells	R. A. NIEDERMAN, C. N. HUNTER, D. E. MALLON & O. T. G. JONES	453–459
Effect of temperature on the reversal of the calcium ion pump in sarcoplasmic reticulum	M. G. P. VALE & A. P. CARVALHO	461–467
Restoration of respiratory electron-transport reactions in quinone-depleted particle preparations from *Anacystis nidulans*	G. A. PESCHEK	515–523
Effect of 2-n-heptyl-4-hydroxyquinoline *N*-oxide on proton permeability of the mitochondrial membrane	K. KRAB & M. WIKSTRÖM	637–639
Subcellular Structures		
The kinetics of the incorporation of newly synthesized ribonucleic acid and protein into the ribosomes of the uterus of the oestrogen-stimulated immature rat	M. J. MERRYWEATHER & J. T. KNOWLER	405–410
Glucosylation of phosphorylpolyisoprenol and sterol at the plasma membrane of soya-bean (*Glycine max*) protoplasts	C. M. CHADWICK & D. H. NORTHCOTE	411–421
Subcellular distribution of enzymes determined by rapid digitonin fractionation of isolated hepatocytes	A. M. JANSKI & N. W. CORNELL	423–429

GENERAL BOOKBINDING CO.
80 2 1
229AA 013 C 2243
QUALITY CONTROL MARK

Subcellular localization of chicken kidney aryl acylamidase activity	J. J. GAYNOR & C. C. STILL	507–513
Cellular Interactions and Control Processes		
The inhibition of macrophage protein turnover by a selective inhibitor of thiol proteinases	E. SHAW & R. T. DEAN	385–390
Steroidogenic action of calcium ions in isolated adrenocortical cells	E. J. PODESTA, A. MILANI, H. STEFFEN & R. NEHER	391–397
Differences in the metabolism of very-low-density lipoproteins by isolated beating-heart cells and the isolated perfused rat heart. Evidence for collagenase-released extracellular lipoprotein lipase	O. V. RAJARAM, M. G. CLARK & P. J. BARTER	431–438
Seed extracts inhibiting protein synthesis *in vitro*	A. GASPERI-CAMPANI, L. BARBIERI, P. MORELLI & F. STIRPE	439–441
Inhibition of protein synthesis *in vitro* by proteins from the seeds of *Momordica charantia* (bitter pear melon)	L. BARBIERI, M. ZAMBONI, E. LORENZONI, L. MONTANARO, S. SPERTI & F. STIRPE	443–452
Modulation of alcohol dehydrogenase and ethanol metabolism by sex hormones in the spontaneously hypertensive rat. Effect of chronic ethanol administration	G. RACHAMIN, J. A. MACDONALD, S. WAHID, J. J. CLAPP, J. M. KHANNA & Y. ISRAEL	483–490
The metabolism of cyclic nucleotides in the guinea-pig pancreas. Cyclic AMP phosphodiesterase and cyclic GMP phosphodiesterase	P. METHVEN, M. LEMON & K. BHOOLA	491–498
The metabolism of cyclic nucleotides in the guinea-pig pancreas. Adenylate cyclase and guanylate cyclase	M. LEMON, P. METHVEN & K. BHOOLA	499–505
Insulin resistance in soleus muscle from obese Zucker rats. Involvement of several defective sites	M. CRETTAZ, M. PRENTKI, D. ZANINETTI & B. JEANRENAUD	525–534
The effects of trypsin and phospholipase C on insulin binding and action in the isolated adipocyte	S. CLARK, R. G. LARKINS, M. DE LUISE & R. A. MELICK	535–540
Metabolic control of the potassium permeability in pancreatic islet cells	J.-C. HENQUIN	541–550
Fibronectin–collagen binding and requirement during cellular adhesion	L. I. GOLD & E. PEARLSTEIN	551–559
Inhibition of cell-free protein synthesis by low-molecular-weight nuclear polyadenylate-containing ribonucleic acid species isolated from the lactating guinea pig	I. C. BATHURST, R. K. CRAIG & P. N. CAMPBELL	561–570
Distribution and partial purification of a liver membrane protein capable of inactivating cytosol enzymes	G. L. FRANCIS & F. J. BALLARD	571–579
Enzyme inactivation via disulphide–thiol exchange as catalysed by a rat liver membrane protein	G. L. FRANCIS & F. J. BALLARD	581–590
Effect of the cholesterol content of small unilamellar liposomes on their stability *in vivo* and *in vitro*	C. KIRBY, J. CLARKE & G. GREGORIADIS	591–598
Effects of ACTH (corticotropin) analogues on steroidogenesis and cyclic AMP in rat adrenocortical cells. Evidence for two different steroidogenically responsive receptors	A. F. BRISTOW, C. GLEED, J.-L. FAUCHÈRE, R. SCHWYZER & D. SCHULSTER	599–603
Interactions between vasopressin and glucagon on ketogenesis and oleate metabolism in isolated hepatocytes from fed rats	D. H. WILLIAMSON, V. ILIC, A. F. C. TORDOFF & E. V. ELLINGTON	621–624
Development		
Phosphatidylcholine synthesis in the developing small intestine	P. G. HOLTZAPPLE, C. M. STARR & T. MORCK	399–403
Regulation of tyrosine aminotransferase in foetal rat liver	S. M. ANDERSSON, N. C. R. RÄIHÄ & J. J. OHISALO	609–612

The effect of premature and delayed birth on the development of UDP-glucuronosyltransferase activities towards bilirubin, morphine and testosterone in the rat — M. T. CAMPBELL & G. J. WISHART — 617–619

Metabolism in Whole Organisms

Calcium ion-stimulated phosphorylation of myelin proteins — P. V. SULAKHE, E. H. PETRALI, B. J. THIESSEN & E. R. DAVIS — 469–473

5,6-Epoxyretinoic acid as a physiological metabolite of retinoic acid in the rat — A. M. MCCORMICK, J. L. NAPOLI, S. YOSHIZAWA & H. F. DELUCA — 475–481

Capillaries of the adrenal cortex possess aminopeptidase A and angiotensin-converting-enzyme activities — P. J. DEL VECCHIO, J. W. RYAN, A. CHUNG & U. S. RYAN — 605–608

The conversion of cephalosporins to 7α-methoxycephalosporins by cell-free extracts of *Streptomyces clavuligerus* — J. O'SULLIVAN & E. P. ABRAHAM — 613–616

Stabilization of rat liver tyrosine aminotransferase *in vivo* by pyridoxine administration — B. M. SNAPE, A. A.-B. BADAWY & M. EVANS — 625–627

Copper metabolism in mottled mouse mutants. Defective placental transfer of ^{64}Cu to foetal brindled (*Mo^{br}*) mice — J. R. MANN, J. CAMAKARIS & D. M. DANKS — 629–631

Inhibition of highly purified mammalian phospholipases A_2 by non-steroidal anti-inflammatory agents. Modulation by calcium ions — R. C. FRANSON, D. EISEN, R. JESSE & C. LANNI — 633–636

Contents of Volume 186, No. 3

Biosynthesis and Degradation

Dietary effects on the formation of dolichyl monophosphate mannose by microsomal preparations of rat adipose tissue — J. J. LUCAS, H. TEPPERMAN & J. TEPPERMAN — 791–798

Role of adenosine deaminase ecto-(5′-nucleotidase) and ecto-(non-specific phosphatase) in cyanide-induced adenosine monophosphate catabolism in rat polymorphonuclear leucocytes — A. C. NEWBY — 907–918

Effect of tunicamycin and cycloheximide on the secretion of acid hydrolases from I-cell cultured fibroblasts — A. L. MILLER, B. C. KRESS, L. LEWIS, R. STEIN & C. KINNON — 971–975

Bioenergetics

Low-level chemiluminescence of bovine heart submitochondrial particles — E. CADENAS, A. BOVERIS & B. CHANCE — 659–667

Carbon monoxide-reacting haemoproteins in the mitochondrial fraction of *Acanthamoeba castellanii* — S. W. EDWARDS & D. LLOYD — 669–678

Role of the subunits of the energy-transducing adenosine triphosphatase from *Micrococcus lysodeikticus* membranes studied by proteolytic digestion and immunological approaches — F. MOLLINEDO, V. LARRAGA, F. J. COLL & E. MUÑOZ — 713–723

The regulation of brain mitochondrial calcium ion transport. The role of ATP in the discrimination between kinetic and membrane-potential-dependent calcium-ion efflux mechanisms — D. G. NICHOLLS & I. D. SCOTT — 833–839

Substrate kinetics of the alternative oxidase of *Neurospora crassa* — J. VANDERLEYDEN, C. PEETERS, H. VERACHTERT & H. BERTRAND — 1009–1011

Subcellular Structures

A species-non-specific liver plasma-membrane antigen and its involvement in chronic active hepatitis — T. A. DE KRETSER, I. G. MCFARLANE, A. L. W. F. EDDLESTON & R. WILLIAMS — 679–685

Evidence from rat liver nuclear preparations that latency of microsomal UDP-glucuronosyltransferase is associated with vesiculation	G. J. WISHART & D. J. FRY	687–691
Production of thiol groups and retention of calcium ions by cardiac mitochondria	E. J. HARRIS & H. BAUM	725–732
Protein synthesis by hybrid ribosomes reconstructed from rabbit reticulocyte ribosomal core-particles and amphibian or fungal split-proteins	R. A. COX & P. GREENWELL	861–872
Complement-mediated production of plasma-membrane vesicles from rat fat-cells	P. J. RICHARDSON & J. P. LUZIO	897–906
Cellular Interactions and Control Processes		
Binding of androgens to a nuclear-envelope fraction from the rat ventral prostate	Y. A. LEFEBVRE & Z. NOVOSAD	641–647
Guanosine 5′-triphosphate and guanosine 5′-[$\beta\gamma$-imido]triphosphate effect a collision coupling mechanism between the glucagon receptor and catalytic unit of adenylate cyclase	M. D. HOUSLAY, I. DIPPLE & K. R. F. ELLIOTT	649–658
Utilization of energy-providing substrates in the isolated working rat heart	H. TAEGTMEYER, R. HEMS & H. A. KREBS	701–711
Prolonged effect of insulin on glucose uptake by rat skeletal muscle	S. B. LEWIS, T. A. SCHULTZ, E. L. DANIELS, M. M. BLIZIOTES & W. MONTAGUE	733–738
Requirement for guanosine triphosphate for cholera-toxin-catalysed incorporation of adenosine diphosphate ribose into rat liver plasma membranes and for activation of adenylate cyclase	C. A. DOBERSKA, A. J. S. MACPHERSON & B. R. MARTIN	749–754
Biphasic effect of acute ethanol administration on rat liver tyrosine–2-oxoglutarate aminotransferase activity	A. A.-B. BADAWY, B. M. SNAPE & M. EVANS	755–761
Tryptophan pyrrolase in haem regulation. The relationship between the depletion of rat liver tryptophan pyrrolase haem and the enhancement of 5-aminolaevulinate synthase activity by 2-allyl-2-isopropylacetamide	A. A.-B. BADAWY & C. J. MORGAN	763–772
Modulation of cyclic AMP-dependent protein kinase by vasopressin and calcitonin in cultured porcine renal LLC-PK_1 cells	D. A. AUSIELLO, D. H. HALL & J.-M. DAYER	773–780
Effect of insulin, catecholamines and calcium ions on phospholipid metabolism in isolated white fat-cells	J. A. GARCÍA-SÁINZ & J. N. FAIN	781–789
Analysis of lectin-dependent recognition of desialylated erythrocytes by Kupfer cells	J. SCHLEPPER-SCHÄFER, V. KOLB-BACHOFEN & H. KOLB	827–831
Nature of virally mediated changes in membrane permeability to small molecules	C. C. IMPRAIM, K. A. FOSTER, K. J. MICKLEM & C. A. PASTERNAK	847–860
Lipoprotein lipase activity of rat cardiac muscle. Changes in the enzyme activity during incubations of isolated cardiac-muscle cells *in vitro*	P. CHOHAN & A. CRYER	873–879
Inhibition of ornithine decarboxylase of HeLa cells by diamines and polyamines. Effect on cell proliferation	A. A. BRANCA & E. J. HERBST	925–931
The effect of nitrous oxide inactivation of vitamin B_{12} on rat hepatic folate. Implications for the methylfolate-trap hypothesis	M. LUMB, R. DEACON, J. PERRY, I. CHANARIN, B. MINTY, M. J. HALSEY & J. F. NUNN	933–936
Binding of insulin to bovine liver plasma membrane. Use of insulin analogues modified at the A1 residue	P. RÖSEN, M. SIMON, H. REINAUER, H. J. FRIESEN, C. DIACONESCU & D. BRANDENBURG	945–952
Control *in vivo* of rat liver phosphofructokinase by glucagon and nutritional changes	A. NIETO & J. G. CASTAÑO	953–957

The metabolism of L-tryptophan by isolated rat liver cells. Effect of albumin binding and amino acid competition on oxidation of tryptophan by tryptophan 2,3-dioxygenase	S. A. SMITH & C. I. POGSON	977–986
Role of Ca^{2+} and cyclic nucleotides in the control of prostaglandin E production in the rat anterior pituitary gland	A. BETTERIDGE	987–992
Tryptophan pyrrolase in haem regulation. The mechanism of the permissive effect of cortisol on the enhancement of 5-aminolaevulinate synthase activity by 2-allyl-2-isopropylacetamide in the adrenalectomized-rat liver	C. J. MORGAN & A. A.-B. BADAWY	993–996
Metabolic changes after prior treatment with ethanol. Evidence against an involvement of the $Na^+ + K^+$-activated ATPase in the increase in ethanol metabolism	T. YUKI, R. G. THURMAN, U. SCHWABE & R. SCHOLZ	997–1000
Actions of insulin and vitamin A on Sertoli cells	A. F. KARL & M. D. GRISWOLD	1001–1003
Impaired lipogenesis in mammary glands of lactating rats fed on a cafeteria diet. Reversal of inhibition of glucose metabolism *in vitro* by insulin	L. AGIUS, B. J. ROLLS, E. A. ROWE & D. H. WILLIAMSON	1005–1008
Development		
Changes in bilirubins in human prenatal development	S. G. BLUMENTHAL, T. STUCKER, R. D. RASMUSSEN, R. M. IKEDA, B. H. RUEBNER, D. E. BERGSTROM & F. W. HANSON	693–700
Rates of glucose production and utilization by the foetus in chronically catheterized sheep	J. C. HODGSON, D. J. MELLOR & A. C. FIELD	739–747
Development of NADPH-producing pathways in rat heart	A. ANDRÉS, J. SATRÚSTEGUI & A. MACHADO	799–803
The development of white adipose tissue. Effect of litter size on the lipoprotein lipase activity of four adipose-tissue depots, serum immunoreactive insulin and tissue cellularity during the first year of life in male and female rats	A. CRYER & H. M. JONES	805–815
Factors that prevent the premature appearance of glucokinase in neonatal rat liver	M. J. O. WAKELAM, M. B. ALLEN & D. G. WALKER	817–826
Perinatal developmental changes in hepatic UDP-glucuronyltransferase	R. B. GOLDSTEIN, D. A. VESSEY, D. ZAKIM, N. MOCK, & M. THALER	841–845
Changes in synthesis of types-I and -III collagen during matrix-induced endochondral bone differentiation in the rat	B. U. STEINMANN & A. H. REDDI	919–924
Lipogenic enzymes in rat maternal adipose tissue in the perinatal period	P. A. SINNETT-SMITH, R. G. VERNON & R. J. MAYER	937–944
UDP-galactose–ceramide galactosyltransferase in rat brain myelin subfractions during development	O. KOUL, K.-H. CHOU & F. B. JUNGALWALA	959–969
Metabolism in Whole Organisms		
Syntheses of penicillin N, [6α-^{3}H]penicillin N and]10-^{14}C, 6α-^{3}H]penicillin N	J. E. BALDWIN, S. R. HERCHEN & P. D. SINGH	881–887
Incorporation of ^{3}H and ^{14}C from [6α-^{3}H]penicillin N and [10-^{14}C,6α-^{3}H]penicillin N into deacetoxycephalosporin C	J. E. BALDWIN, P. D. SINGH, M. YOSHIDA, Y. SAWADA & A. L. DEMAIN	889–895
